My house was larger and brighter because Mr. Beecher tarried there. Mr. Beecher and his wife used to call themselves two old folks; burgh. Condition of British Trade. MANCHESTER, March 9.-The Guardian n its commercial article to-day, says: The market is firm and strong, checking progress in several departments where quan-tity is concerned. The demand for India grees in several departments where quantity is concerned. The demand for India is exceedingly poor, and will not be materially improved by a moderate concession by producers. The recent heavy decline in exchange brought an important increase of inquiry from native dealers who were desirous of placing contracts for forward delivery in anticipation of a rise in rupee prices, which ordinarily follows a drop in exchange. Subsequently, hower, there was a slight reaction in exchange, which caused doubt of an advance in rupees, and therefore a falling off in the telegraph inquiry. A moderate business has been done in China staples, and there are some orders pending. Occasional orders for finishing goods have been placed for the smaller foreign markets. There have been but few important transactions in export yarn, and those mostly for the Continent of China.

Home manufacturers are reluctant to purchase beyond actual requirements, and they have done a poor business except in fine yarns made from Egyptian cotton, which sold fairly well at Friday's full

No further executions are expected. Troops and to Silistic the uncovered to the sentence of the comments of the sentence of the one for a uniform pitch, and another for a ling to the Dattalion of Sophia were all law prohibiting government bands from sentenced to three years.
